Summary

Highest Profit :
The product with the highest profit is from **realme**, which is leading in the "Profit by Product" chart.

Price and Profit Relationship
Products priced at ₹11,999 have the highest average profit margin at 17.6%, indicating that this price point may be optimal for maximizing profits. The lowest profit percentage is associated with the price point of ₹1,999, suggesting that lower-priced products might not be as profitable.

Ranking by Product :
LAVA and **Xiaomi** are the top performers in terms of sales ranking, with LAVA slightly outperforming Xiaomi.

itel
ranks the lowest among the displayed products, which may indicate a need for strategic adjustments to
